Valid for subscriptions beginning in 2020

EMSDIRECTOR magazine is a quarterly-printed publication that was originally developed in 2014 for clients of EMERGENCY MEDICAL SOLUTIONS llc, but was re-launched as a national publication for any & all EMS professionals in 2018. Since its re-launch, the publication has grown to include over 20 re-occurring columns, multiple sponsored content columns, increased advertising space, and additional insights spread over 60+ pages (with more pages projected throughout 2020). Its goal is to provide PROFESSIONAL DEVELOPMENT for EMS, and its audience includes EMS directors, chiefs, administrators, managers, supervisors, field training officers, clinicians, and other decision-makers from throughout the industry. As of the transition from 2019-2020, the magazine is circulated to over 700 individuals spread over nearly all 50 states in the U.S., as well as a small audience in three additional countries.

As of mid-2019, the magazine began a partnership with the National EMS Management Association (NEMSMA) to become its official publication. Through this partnership, all NEMSMA members receive a subscription coinciding with their association membership.

Each magazine is digitally-printed in full-color, 8.5" x 11" in size, and is mailed directly to each subscriber within the defined quarter. Options also exist for bulk orders, where EMS agencies can take advantage of receiving multiple copies of each magazine at a discounted rate, sent to a central location. Individual subscriptions cost \$25 per year, with renewals only costing \$20 thereafter. Contributors to the magazine have varied professional backgrounds from throughout the EMS industry and include EMS directors/chiefs, training officers, billing company representatives, and consultants.

Q1 – JAN/FEB/MAR
Q2 – APR/MAY/JUNE
Q3 – JULY/AUG/SEPT
Q4 – OCT/NOV/DEC

Article & advertisement submission deadlines & criteria are updated on our website.
